## Products

The MR316 series ZapFree™ Fiber Optic Rotary Encoder is an entirely passive, intrinsically safe, fiber optic incremental rotary encoder – ideal for a wide range of harsh and hazardous environmental applications. The all-optical sensor requires a single 62.5/125 MM optical fiber link for utmost ease of installation.

Downstream, the MR310 Remote Encoder Interface (REI) module provides an array of interfaces and features:

- Direct A/B Pull-Up and A/A'/B/B' Line Driver quadrature outputs
- Multiplier/Divider function with separate A/A'/B/B' LD Outputs
- Fully programmable 4-20mA output (Speed or Position)
- Fully programmable ±10V analog output (Speed or Position)
- RS422/RS485 serial interface (RS232 adapter available)

Intrinsically Safe  
Simple Apparatus  
CE Ex op is I/II ... Ga

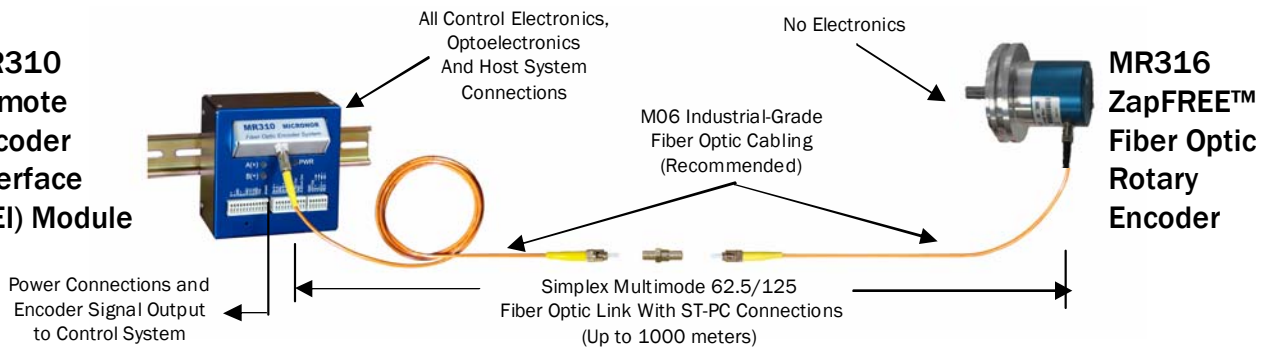

## Features

- 100% passive sensing design in industry standard 90mm Ø encoder housing
- ATEX Classification “Simple Apparatus” and Intrinsically Safe. For use in all IEC Group I/II, U.S. Class I/II/III and Zones 0/1/2/20/21/22 hazardous and explosive atmospheres
- Insensitive to EMI and RFI for use in and around medical equipment and “noisy” industrial environments
- Immune to lightning and atmospheric static that “zaps” conventional encoders
- Outdistances copper - link lengths to 1000m
- Standard temperature range: -40/+80 °C; **Extended** option range: -60/+150 °C
- Special versions can be engineered for radiation and thermal-vac environments

## Installation

**MR310 Remote Encoder Interface (REI) Module**

**MR316 ZapFree™ Fiber Optic Rotary Encoder**

1. Connect the MR316 to the external equipment via a flexible shaft coupling and follow flange/panel mounting guidelines provided in MR3XX ZapFree™ Encoder System User Guide.
2. Make MR310 electrical connections (power, ground, quadrature signals, serial interface, etc.) to the control system via WAGO Quick-Connect plugs (supplied with the MR310).
3. Connect ZapFree™ Encoder to MR310 Module via MR320 series ST-PC to ST-PC FO cable assembly (or equivalent).
4. The ZapFree™ Fiber Optic Encoder System is now ready to operate!
